ARTIST'S STATEMENT

ARTIST'S STATEMENT  
This artwork is a continuation of my interest in geometric patterns and color. It is inspired by traditional folk art and the vibrant colors of the Mexican folk art movement. The piece is a study in balance and harmony, combining traditional motifs with contemporary geometric forms.

ARTIST STATEMENT: I have always been drawn to the intricate patterns and textures of traditional beaded jewelry. This piece is a fusion of my love for traditional craftsmanship and my desire to create a modern, wearable sculpture. The central body is made of thousands of tiny beads, each hand-placed, creating a complex, multi-colored diamond pattern. The black feathers at the top and the long, cascading tassels at the bottom are made of natural materials, adding a sense of movement and texture to the piece. I hope this sculpture resonates with those who appreciate the beauty of traditional art and the power of contemporary design.
